The President's Message

Greetings to all Delta Chapter sisters! I hope this finds all of you well. We have upon us a very important election year in 2016. It is important that we become a part of our communities and advocate for responsible leaders who will look to helping our communities, our teachers, and our students with enacting responsible legislation. We need to remember that we have influence over others who may not know the ins and outs of the education systems. We need to advocate for leaders who have proven themselves as supporters of education. Please be a voice when you find yourselves in a position to speak out. You never know what an influence you can be to others.

Karen
